The authorities of the European Community have selected 26 fragrance ingredients which are considered to be potential allergens. If any of these 26 fragrance ingredients are determined to be present at a level of 10 ppm (= 0.001%) or more in a leave-on personal care product or at a level of 100 ppm (= 0.01%) or more in a rinse-off personal care product or detergent product, then they must be included as an ingredient on the product label if the product is to be sold in the European Community. Whilst Australian legislation and regulations for personal care products and detergent products does not require such ingredient disclosure, it is provided below in the interests of transparency and to assist consumers in making an informed choice.

*Fragrance ingredients which are considered to be potential allergens present in the product at a level of 100 ppm (=0.01%) or more:*

### 4. FIRST AID MEASURES

Ingestion:	Rinse mouth with water. Do not induce vomiting. Give plenty of water to drink. Seek medical advice or contact Poisons Information Centre (phone Australia 13 1126; New Zealand 0800 764 766).
Eye:	Immediately hold eyes open and flush with large amounts of water for at least 15 minutes. If irritation persists, seek medical advice.
Skin:	Generally the product does not irritate the skin.
Inhaled:	Remove victim from exposure to fresh air. If not breathing apply artificial respiration. If breathing is difficult, give oxygen. Seek medical advice.
First Aid Facilities:	Workcover recommended first aid facilities appropriate to the size of the workplace.
Advice to Doctor:	Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

Extinguishing media:	Foam, dry chemical powder or carbon dioxide extinguishers. Fight larger fires with water spray or alcohol resistant foam.
Hazards from combustion products:	This mixture contains inorganic oxidants that release oxygen on heating and may contribute to the combustion process.
Personal protective equipment:	Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if this product is involved in a fire.
Hazchem code:	None assigned.

## 6. ACCIDENTAL RELEASE MEASURES

Emergency procedures:	Avoid breathing dusts. Keep area well ventilated. Clear area of all unprotected personnel. Avoid accidents, clean up immediately. Wear sufficient respiratory protection and personal protective equipment.
Methods and materials for containment and clean up:	Contain spill to prevent contamination of drains/waterways. Vacuum or sweep up material avoiding dust generation. Respirator protection may be required if dust is present and ventilation is inadequate. Collect and seal in properly labelled containers for disposal in accordance with local regulations.

## 7. HANDLING AND STORAGE

Precautions for safe handling:	Avoid skin and eye contact.
